INVITÉS EN 2025

Professor Enza LISSANDRELLO

Department of Sustainability and Planning
Aalborg University - Denmark

Enza brings an extensive experience as a lecturer and researcher in urban planning from both international and transnational perspectives from Nordic countries. Her academic qualifications encompass sustainability planning and public policy, human geography, urban studies, and socio-technological transitions. Her work focuses on planning frameworks, methods, and strategies aimed at addressing contemporary challenges such as sustainability, climate change, energy issues, and poly-crises arising from complex, radical problems in risk society. Additionally, she focuses on participatory planning, deliberation, conflicts, and issues of representation.
